**Services Offered in Office:**

In addition to a full range of medical services, we offer assistance for the following situations:

**Behavioral Health (BH)**

BH concerns can reveal themselves at any point in one's life. People can experience depression, anxiety, substance abuse or just need help to change unhealthy habits such as smoking or food dependency. **Our providers** are ready to discuss these issues when they occur. We also have an extensive referral network of BH specialists to address your particular need. Discuss this with your healthcare provider.

**Health Care Coverage**

Our practice accepts multiple insurance companies; please visit our website, call, or inquire at the office.

If you lose your insurance while you are our patient, resources are available for you to obtain coverage:

**\*Patient-Centered** means **You** are the most important person on your health care team. A **Medical Home** is a medical team working together to provide you with the best possible care.

**\*Patients** are responsible for providing a complete medical history and information about care obtained outside the practice.

**\*Your Primary Care Provider** works as the gate keeper to coordinate your care with hospitals and specialists.

**\*The Medical Home** is a model that emphasizes improving and maintaining healthy lifestyles through evidence-based care.

**\*We** are here to work with you and provide the support you need.

**Why do I need a Primary Care Provider (PCP)?**

Your PCP learns over time, your medical history, habits and social factors that influence your health. This important information helps your provider make decisions that positively affect your well-being. Visit our website at to learn more about our provider(s) and staff.
